Climbers

Ask a child about climbing and they will tell you it is *'just fun'*.

What they may not know is that climbing allows children to *improve their coordination* and *motor skills* as well as help them *problem solve* and even help *boost their confidence levels!*

Network: Children look forward to play because it gives them a chance to visit with friends outside of school, develop new friendships and play fun and imaginary games that they might not be able to play at home. The **Network** allows for all of that in one climber!

Balance, Co-ordination, Upper & Lower Body Strength, Core Strength, Strength-Building

Cow Climber: Adding to a farming theme or just because it is a fantastic climber, the Cow Climber is a fantastic addition to your playground.

Balance, Co-ordination, Upper & Lower Body Strength, Core Strength, Strength-Building

Chicken Climber: A fun way to add climbing action to your play space, the Super Chicken offers diverse activities for multiple users. A great addition a farm-themed playground.

Balance, Co-ordination, Upper & Lower Body Strength, Core Strength, Strength-Building

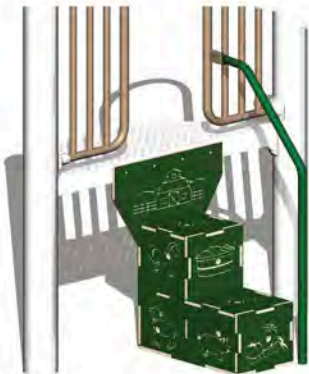

Shipmate: Here's a quick way to get out of the way in a fast game of Grounders!

Balance, Co-ordination, Lower Body Strength, Strength-Building

Leaf Climber: Kids of all ages love this climber! Race a friend up to the top ... there's room for two!

Co-ordination, Upper & Lower Body Strength, Strength-Building

Farmyard Building Blocks: For a more basic way of 'getting up to the deck', the Farmyard Building Blocks give ease of use and a lot of sensory play at the same time!

Balance, Lower Body Strength, Core Strength,

Criss Cross Climber: This climber looks fun and it IS fun! So many possibilities!

Balance, Co-ordination, Upper & Lower Body Strength, Strength-Building, Problem Solving, Fine & Gross Motor Skills

Ocean Wave: A throwback to earlier days, the Ocean Wave has emerged in the 21st century and is becoming a must have on many playgrounds! Is it a climber? Is it a spinner? Whatever you want to call it, it is a whole lot of fun!

Co-ordination, Upper & Lower Body Strength, Strength-Building, Fine & Gross Motor Skills

Nunatak Clear: Wait... **what?** What would it feel like to step in the air? The Clear Nunatak gives you the opportunity to imagine that this is exactly what you are doing!

Balance, Co-ordination, Upper & Lower Body Strength, Strength-Building, Core Control, Fine & Gross Motor Skills

TeePee: This unique four-sided climber supplies various styles of climbing and makes a great addition to any park or playground.

Upper Body Strength, Lower Body Strength, Problem Solving, Fine & Gross Motor Skills, Core Strength

Barrell Crawl: Constructed of Glass Fiber Reinforced Concrete, the Barrell Crawl is extremely durable. Whether they are climbing in, on, or over, there are years of physical, sensory and social play to be had here!

Balance, Lower Body Strength, Core Strength,

Overheads Regular & Lowered

Overheads offer improved *upper body skills* and *grip strength*; more *flexibility of the arms, shoulders and back*; better *hand-eye coordination*; enhanced *distance perception* and so much more! **Lower a section of the overheads** on your playground to offer all of the benefits to those children that couldn't otherwise reach the high bars.

Advanced Horizontal Ladder: What a great way to change up the ever-popular monkey bar! Steady as she goes!

Co-ordination, Upper Body Strength, Strength-Building, Core Control, Fine & Gross Motor Skills

Advanced Horizontal Ladder: What a great way to change up the ever-popular monkey bar! Steady as she goes!

Co-ordination, Upper Body Strength, Strength-Building, Core Control, Fine & Gross Motor Skills

Crossover (not exactly as shown): Lowering an overhead component like the Crossover adds to the inclusivity of your playground. This component is a take on the Monkey Bar that is sure to please all kids!

Co-ordination, Upper Body Strength, Strength-Building, Core Control, Fine & Gross Motor Skills

Slides

Do you remember what it felt like to be at the stairs of a slide at your favorite playground as a child? ***The anticipation of stepping up to the platform*** and how great it felt to be at the top? Then... sitting down and getting comfortable for the ride that was to come and then.... **SLIDE!**

Did you ever even once think about how good this was for you? The benefits of a slide range from ***physiological to sociological*** and much in between! Kids climb up to the slide, all the while ***building coordination*** and ***developing strength in their arms and legs***. Then they get increased ***vestibular involvement*** sliding down the slide.

Plastic Spiral Tube Slide: Provides exciting sliding action and is the first place they may head on their way out to the playground!

Balance, Core Strength, Vestibular Stimulation

Starglide Slide: If you're going to have a slide... what a treat the Starglide Slide is! This one is definitely as much fun as it looks!

Balance, Core Strength, Vestibular Stimulation

Freestanding & Extra Fun

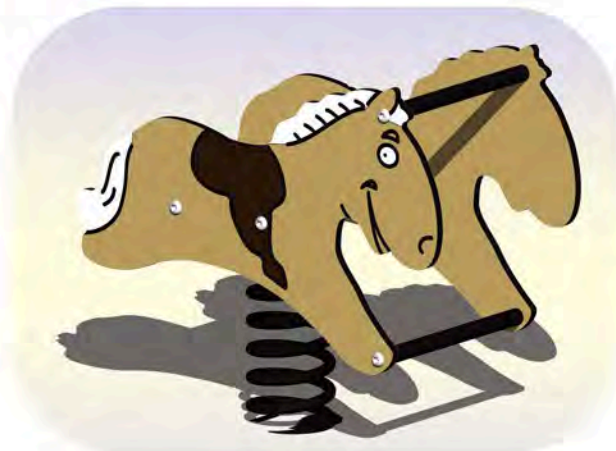

Across the span of the playground, you will find fabulously fun ***freestanding components*** for both ***solitary play*** and ***group play***; also, take a look at the play panels that will inspire those young ***imagination to dream up new adventures every day!***

Cozy Cabin: Children at this age love to play house and what could be better than a cozy little cabin? This appealing design creates an inviting space for social interaction, imaginative role play and sensory discovery.

Farmer's Market: Stop in to see what the Special of the Day is at the local playground Farmer's Market! Shopping local is easy with this panel and it's a great place to meet up with your friends and chat about the goings on of the playground!

Buckaroo Rider: Bouncing assists with motion feedback - how the body responds to movement through space and perception. This little piggy allows one user to separate himself if so desired and yet still feel a part of the play. Also a great way to expend energy with repetitive motion.

Comes in a variety of themes!

Tandem Bounce: Big bouncing fun for multiple ages and abilities! Designed with two bench seats and a flat surface in the middle so several kids can play at once. A good choice for children on the autism spectrum.

Balance, Core Strength, Vestibular Stimulation

Canadian Wildlife Memory Panel: Test your memory and improve your skills with the fabulous Memory Panel! Intellectual play is a valuable part of the playground. This is another great way to play alone or with a friend!

Piggy Rider: Bouncing assists with motion feedback - how the body responds to movement through space and perception. This little piggy allows one user to separate himself if so desired and yet still feel a part of the play. Also a great way to expend energy with repetitive motion.

Buddy Panel: Grab a buddy and take advantage of this fantastic photo opp! SO CUTE! Customize the Buddy Panel to make it fit your playground's theme with one of our fun theme inspirations! Making memories on the playground!

Barn Wall Panel: Creating a theme on the playground adds to all kinds of fun. The Barn Wall Panels are a great example of this. Imaginative play is so important! There are a lot of possibilities with this panel too. Add a window, or a maze!

Hex Roof: Add a little shade and bring colour and a fun look into the playground! The Hex Roof is a fabulous addition to any playground. Can be customized for a small customization fee!

Tractor: John Deere would feel right at home with this amazing component on the playground! Let the kids imaginations run wild! Driving a tractor is serious business and serious fun!

Sheep Rider: Bouncing assists with motion feedback - how the body responds to movement through space and perception. This little piggy allows one user to separate himself if so desired and yet still feel a part of the play. Also a great way to expend energy with repetitive motion.

Talk Tube: Can you hear me now? Whether or not there is a Wi-Fi signal, you will be able to communicate with anyone you can imagine when the Blue Imp Talk Tube is a part of your playground! What a fun. Imagination-inspiring!

Fence with Steering Wheel: There is no end to the possibilities of what your day will bring when you're behind the wheel! Bring your friends for a road trip around the country or take a short tour to visit friends!

Swinging Elements

Swinging is a long-held favorite activity for all ages and abilities on the playground! Swinging can aid your child's development, in areas such as **balance, fine and gross motor skills**, and **coordination**. Swinging can also help the **brain learn to make sense of speed and direction**, which may be beneficial for kids with **visual perception issues**! Swinging is also very calming and benefits children on the **Autism/Asperger's spectrum**.

Tire Swing: Classic tire swings provide fun and activity for multiple users. Swing moves in all directions and spins. Promotes co-operation, teamwork and parallel play

Bridges & Links

Linking play for as many abilities as possible is an important part of playground design. **Circuits** on the playground inspire group games such as the ever-popular game **Grounders** and further **imaginative play**! There is something for everyone with our Bridges & Links... have a look!

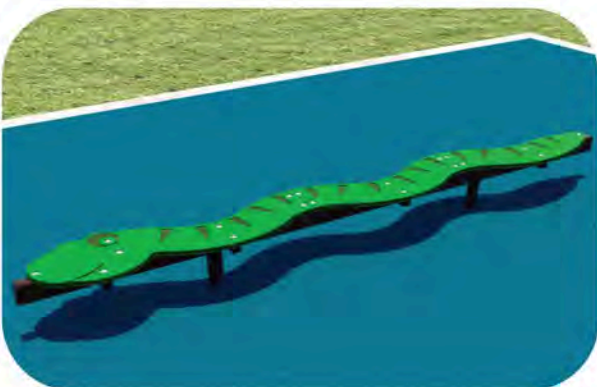

Pebble Arch: Not only is it fun, it gives the young ones a chance to feel what it is to be climber! There are so many advantages to playing on a playground and this is one of them! Teaching through play!

Upper & Lower Body Strength, Strength-Building, Problem Solving Hand, Feet & Eye Coordination, Fine & Gross Motor Skills, Core Strength

Imprints: Follow the Imp's footprints to get you to the next component safely!

Lower Body Strength, Gross Motor Skills, Balance & Core Strength

Snake Balance Beam: The Balance Beam with a twist and a hiss! This fun component allows you to have fun while building muscle, balance and coordination, strength, concentration and smiles!

Agility, Co-ordination, Lower Body Strength

Stepping Saucers: Whether you are in a hurry or just want to stay out of the lava, the Stepping Saucer is the perfect link to take you from one place to another!

Balance, Lower Body Strength, Strength-Building, Core Control, Fine & Gross Motor Skills

Trapeze Bridge: Hang on tight as you scale your way to the top!

Agility, Co-ordination, Lower Body Strength, Upper Body Strength, Grip Strength, Fine & Gross Motor Skills

Crazy 8: The Crazy 8 lives up to its name as you will find out when you step on the springy platform. Try to balance or bring a friend along for the fun! This is a fabulous alternative to the stepping saucers or blocks to link the play!

Balance, Core Strength,, Upper & Lower Body Strength

Crawl Tube: Exploring is always fun, and the Blue Imp Crawl Tube offers the little explorer a chance to imagine and explore! Offered in aluminum as well.

Parallel Bars: You can climb, you can hang, you can traverse! Use the parallel bars for an additional challenge in games like "Grounders". A great way to link your play!

Upper & Lower Body Strength, Core Strength, Fine & Gross Motor Skills

Canyon Crossing: Step carefully as you make your way across the Canyon Crossing! Always a challenge and always an adventure!

Balance, Core Strength, Grip Strength, Upper & Lower Body Strength, Fine & Gross Motor Skills
